

SAFETY IN FLIGHT TO BE DISCUSSED

Aeronauts Are Aroused by Increasing Number of Fatal Accidents.

HOLD MEETING IN PARIS

French Candidates Will Be Subjected to Very Severe Tests.

Paris, October 19.—The serious question of the safety of airplanes has been raised by the great number of fatal accidents to airmen, and is to be discussed at length at a special session of the Permanent International Aeronautical Commission during the aviation salon on November 4, 5 and 6. Several important communications are then to be made by military and civil experts of various countries.

A novel feature of the salon, which opens on October 25, will be the exhibition of a large number of military and naval aircraft constructed by public subscription. The military machines are to be guarded by aeronautical sappers, and the naval hydro aeroplanes by bluejackets.

A number of "aviettes," which is the technical name for machines or planes propelled by human power only, will be exhibited in a special section of the salon.

The 100 candidates for France's flying corps are to be subjected to very severe tests at the physical examination ordered by the Ministry of War. Among the requirements are perfect vision, normal color sense, sharp hearing and absolute soundness of circulation. It is specified particularly that no person who has to wear spectacles shall do any flying, a rule made the more interesting because some of the world's most notable airmen, past and present, wore or now wear glasses.

The candidates are now learning to fly at the government aerodromes, some of them as pilots of dirigible balloons, but the majority as individuals. The test is to be a complete one for operators of aeroplanes, but for balloon aeronauts.

Heavy damage by rats. Forty million dollars yearly is the estimated figure of the damage done by rats to crops and property in France. The publication of these statistics by the Incorporated Society for the Destruction of Vermin has given an impetus to the campaign for the extermination of the rodent which is also known to be a transmitter of disease.

The example set by several American cities has been followed with great interest in France and has led Dr. Fontenelle to make a special study of the subject. He finds that the role of the rat and the mouse has been very serious in connection with cases of pneumonia. For a long time it has been noticed that this disease was more deadly in hospitals than other places. The pneumonia microbe becomes extremely virulent in the blood of a mouse and if a sick person comes in contact with a mouse microbe he will be gravely attacked by the disease.

Dr. Fontenelle says that the hospitals of Paris, especially the old ones, are alive with rodents. The pneumonia microbe exists, therefore, in conditions calculated to increase its virulence and its murderous powers of destruction. He urges the necessity of an immediate and complete extermination of rodents in every hospital establishment in France or in any other country where the rat or mouse may be found.

The depredations of the rat in France are enormous. It is reckoned that for a farm of fifty hectares of wheat and pasture lands the losses caused by rats reach an annual minimum of \$100. The destruction by rats throughout France amounts yearly to \$100,000,000. Inhabitant Dr. Fontenelle says: "This is too high a tax to pay to the rat tribe and the ever-present danger from the rodents propagation of maladies like the plague and pneumonia shows the wisdom of carrying on a determined war of extermination."

Comforts in Prison. An amusing narrative of the comforts of prisoners in Constantinople is told by a French correspondent. Having applied in vain for permission to visit the imprisoned David Bey ex-Minister of Finance, the correspondent went to the prison and boldly asked to see the distinguished prisoner. To his surprise he was immediately shown in, and after having been requested to sign the visitors' book, was ushered into a magnificent room, where the governor and several attendants were occupied in receiving guests. A large table in the center of the room groined under the weight of cakes and Oriental sweetmeats, while coffee was being handed round by uniformed servants.

David Bey himself was delivering a political speech at the far end of the apartment. Having concluded his discourse amid a round of applause from his fellow-prisoners, the ex-minister came forward to welcome his guest. Prisoner and correspondent made a tour of inspection of the sumptuous house of detention where the prisoner's rooms are decorated every day with fresh-cut flowers and where the centries are expected by the governor to wait upon the prisoners. Then they took coffee together.

As the correspondent was about to

STOMACH SOUR AND FULL OF GAS? GOT INDIGESTION? HERE'S A CURE.

Time it! In five minutes all stomach distress will go. No indigestion, heartburn, sourness or belching of gas, acid or eructations of undigested food, no dizziness, bloating, foul breath or headache.

Pape's Diapepsin is noted for its speed in regulating upset stomachs. It is the surest, quickest and most certain remedy in the whole world, and besides it is harmless. Millions of men and women now eat their favorite foods without fear—they know now it is need to have a had stomach. —Advertisement—

MIDSHIPMAN ON TRIAL FOR HAZING

Alleged Victim Apparently Attempts to Shield Upper Classman.

[Special to The Times-Dispatch.] Annapolis, Md., October 19.—By order of the Secretary of the Navy, a court-martial convened here to-day for the purpose of trying charges of hazing against Midshipman Walter J. Tigan, of Illinois, a member of the third class. The authorities are withholding the details of the affair, but it is known that Tigan and a classmate are charged with making R. S. Berkeley, a fourth classman from Indiana, stand on his head a number of times, and it is also understood that the witness of the affair, besides Berkeley, is one of the officers of the discipline department who stumbled into the room of the upper classmen while the performance was going on. It is understood that Berkeley did not make a very satisfactory witness to-day but appeared to try to protect the upper classmen as far as possible. It is clear that the authorities regard the case as a proper one for dismissal.

Opened to Commerce. Detroit, Mich., October 19.—With the booming of guns and blowing of steamship whistles, the Livingston Channel from the lower Detroit River into Lake Erie was formally opened to commerce to-day. The new channel was completed at a cost of \$1,000,000.

News from Women's Column. London, October 19.—It is rumored that Mrs. and Mrs. Lawrence succeeded from the Women's Social and Political Union because they disapproved of a plan of Mrs. Emmeline Pankhurst and her daughter, Christabel, to destroy the ballot papers at the London municipal election in November with corrosive acid. The Lawrence refuse to confirm or deny the report.

CRUISER WILL AID IN RESCUE WORK

The Cincinnati Sent to Cebu, Following Typhoon Which Sweeps Island.

Washington, October 19.—Rear Admiral Nicholson, commander-in-chief of the Asiatic squadron, reported to the Navy Department to-day that he had sent the cruiser Cincinnati to Cebu to aid in the rescue work following the typhoon which swept the island. On the Cincinnati is General Bandholtz, commander of the Philippine constabulary, and two aides. They will make an investigation of the extent of the loss of life and property and report what measures are needed. The Cincinnati will also keep in touch with Manila by wireless, thus affording the only means of communication.

Extort Not Known. Manila, October 19.—Until reports are received from the cruisers Saratoga and Cincinnati, dispatched to relieve typhoon sufferers on the islands of Surigao, Leyte, Bohol, Cebu, Negros, Zamboanga and Cebu, it will be impossible accurately to estimate the extent of the disaster, government officials here said to-night. It was feared the typhoon might run into the thousands. Six hundred was the latest figure given on the strength of actual information.

WIFE OF ACCUSED OFFICER

Mrs. Charles Becker, snarped in court at the trial of her husband for the murder of Herman Rosenthal.

SEEKING TO PLACE BLAME ON OTHERS

(Continued From First Page.)

latter a gambler, to-day testified that they had heard Rose and Webster make threats to kill Rosenthal. Mr. McIntyre and his associates were elated over the testimony offered for their client to-day, but none of these witnesses escaped unscathed under the rapid fire of cross-examination.

On Monday the defense will again take up its task of proving that the informers themselves killed Rosenthal. Mr. McIntyre declines to say whether Lieutenant Becker was permitted to take the stand in his own behalf or as to whether or not Mrs. Becker will be called. The belief of lawyers who have followed the case is that neither will testify, since Becker's appearance as a witness would give the district attorney his chance to get in the graft evidence and the savings bank accounts. That

Don't Be Fussy About Eating

Your Stomach Will Digest Any Kind of Food When Given the Proper Assistance.

We are prone to fall into the error of singling out some article of food and soundly rebuking the fend who first invented the dish. The habit grows upon some people till almost all food is put on the blacklist. This is all wrong. What is required is a little assistance with those agencies upon which scientific students for many years have set their seal of approval because they have become absolute facts. Stuart's Dyspepsia Tablets for all stomach disorders are recognized; they have a fine record; they are rated reliable, dependable and worthy of confidence just as the president of a big bank puts his O. K. on a depositor's check. And so you can eat what you want, whatever you like, knowing well that should indigestion, sour risings, gas formations, fermentations or any other stomach distress arise, Stuart's Dyspepsia Tablets in a few moments will put you right.

Coated tongue, bad breath, heartburn, belching, flatulency, bloating—all the symptoms of digestive troubles disappear quickly when these tablets are used. They are not a cure for anything but dyspepsia and kindred complaints. But they have brought relief to more sufferers from digestive diseases than all the patent medicines and doctor's prescriptions put together.

The stomach does the heaviest work of any of the bodily organs, yet it's the one we treat with the least regard. We eat too much of the wrong kind of food at any time. The patient stomach stands such treatment as long as it can and then it rebels. You get notice of the rebellion in the shape of the gases and pains caused by undigested, fermenting food.

Stuart's Dyspepsia Tablets are sold and recommended by all druggists at 50c a box.—Advertisement—

might happen, too, if Mrs. Becker were exposed to cross-examination.

Goes to Jury This Week.

The case will go to the jury next week. This was made certain to-day when Attorney John F. McIntyre, for the defense, managed to get before the jury the extraordinary stipulation entered into by District Attorney Whitman with the quartet of gamblers who are the keynotes of the State's case.

The case against Becker may stand or fall on this document, entered into by the chief county prosecutor, with the full knowledge and approval of Judge Mulqueen, of the General Sessions Court. McIntyre, although trying as much as possible to get before the jury the extraordinary stipulation of the gamblers who are the keynotes of the State's case, argued to-night that he will argue to the jury that these stipulations—there are four, one for each witness, Schepps, Rose, Webster and Vallone—prove the motive for the murder. He will argue, he said, that in view of the promised immunity and that they would be permitted to walk the streets free men as soon as the present case ends, no matter what evidence of crime in which they were participants is revealed by the disclosures of the present trial, the quartet had to make their story stand up, and this is the reason why each tale of graft and murder dovetailed as closely with the others as it did.

District Attorney Whitman admitted that he expected McIntyre would make this use of the stipulations, but said that he would show the jury that he had entered into this agreement in order to make his case stand proof. And he intimated that he would handle without gloves the story told by Reporter Hawley and by the police witnesses who testified to-day, when he reaches the order of rebuttal and summing up.

To-day's session of the trial was short in order that the jury might register so that the members can vote in election day. In a big eight-seating auto they were taken to their various polling places under guard of court officers.

Most of to-day's session proved profitable for the defense. After getting the stipulations before the jury McIntyre also forced Whitman to submit Rose's original confession on which he so greatly relied on the stand. McIntyre said to-day that he could close on Monday, and Whitman said he could get all of his rebuttal in in one day. McIntyre will ask for two days, in which to sum up, but it is not likely Justice Goff will give each side more than half a day, and it seemed certain to-night that the case would get to the jury by next Thursday or Friday.

HUNTER BACK WITH BAG WELL FILLED

San Francisco, October 19.—Frederick K. Burnham, of New York, big game hunter, and Mrs. Burnham, arrived in San Francisco to-day with trophies of a forty-three-day hunt in the Canadian district of Alaska. They have consisted of six caribou, four black mountain sheep, two moose, one goat and seventeen muskies.

Mrs. Burnham, dressed in trousers, accompanied her husband on the entire trip, which covered 20 miles over country which few white hunters have explored.

The most thrilling part of his trip, said Burnham, was the killing of five grizzly bears in two minutes with seven rifle shots, and his Indian guide had separated to trail a bear sighted on a distant ridge, when Burnham stepped into an open spot and faced an immense grizzly. He held out the bear when another charged him from one side, and three more from the opposite side.

He got three of them with five shots," said Burnham.

**SUIT TO CONTINUE
BY JUDGE'S ORDER**
Action Attacks Bond Issue of Alabama Coal and Iron Company.

ceedings had not been resumed, and that their pendency interfered with the reorganization of the company, Justice Thayer today made an order directing the Attorney General to at once proceed with the suit and to serve a copy upon the company within five days.

The Alabama company was recently declared insolvent by the Alabama courts and is now in process of reorganization. It is claimed that the suit of the Attorney General against the action of the Alabama company to set aside a bond issue to replace preferred stock was prompted by hostile parties, and that neither the Attorney General nor the State of New Jersey had any interest in the matter.
